These writings chart Harman's rise from Chicago sportswriter to co-founder of one of Europe's most promising philosophical movements: Speculative Realism. This fascinating collection of eleven essays and lectures from 1997 to 2009, anchored by Harman's rebellious transformation of Heideggerian philosophy, shows the evolution of his object-oriented metaphysics from its early days into an increasingly developed philosophical position.

With grace, wit, and a remarkable inventiveness Harman invites us to return to basic philosophical questions. Whether or not one agrees with Harman's conclusions his work will be an inspiration for many.

Martin Hägglund, Harvard University, author of *Radical Atheism*

...must-read for scholars interested in metaphysics, philosophy or science studies.

Myra Hird, Queen's University, Canada, author of *The Origins of Sociable Life*

GRAHAM HARMAN is Associate Provost for Research Administration and a member of the Department of Philosophy at the American University in Cairo, Egypt.
